

EAATM

SUPPLEMENT

Description

A food for special medical purposes.

EAA supplementTM is a tropical flavoured powder containing essential amino acids, carbohydrate, vitamins, minerals and trace elements. Contains sugar and sweetener.

Indications

EAA supplement is for use in the dietary management of disorders of protein metabolism where essential amino acids are required from 3 years of age. Suitable for the dietary management of urea cycle disorders.

Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age, body weight and medical condition of the patient.

EAA supplement (12.5g) = 5g PE

Preparation Guidelines

To be determined by the clinician or dietitian.

Empty the contents of the sachet into a beaker

Add cold water to make the final volume to 100ml

Secure the lid and shake well before drinking. Water or permitted drinks should be taken after EAA supplement.

IMPORTANT NOTICE

Must only be used under strict medical supervision.

Suitable from 3 years of age.

Not for use as a sole source of nutrition.

For enteral use only.
