

# Citrulline<sup>200</sup> Citrulline<sup>1000</sup>

ACBS  GMS  PBS

## Description

### Food for special medical purposes.

A powdered citrulline amino acid supplement on a carbohydrate base.

## Indications

For the dietary management of inborn errors of amino acid metabolism from birth.

## Dosage and Administration

To be determined by the clinician or dietitian and is dependent on the age,

body weight and medical condition of the patient.

## Preparation Guidelines

To be determined by the clinician or dietitian.

May be used in low protein diets in a variety of ways:

- Mixed in with protein substitute
- Added to modular feeds.
- Incorporated into other permitted food or drink.

Citrulline<sup>200</sup> (4g) = 200mg of L-Citrulline

Citrulline<sup>1000</sup> (4g) = 1000mg of L-Citrulline

## IMPORTANT NOTICE

Must only be given to patients with proven inborn errors of amino acid metabolism under strict medical supervision.

Suitable from birth.

Children under 12 months: when made into solution or added to infant formula, use immediately and discard any remaining within 1 hour.

Not for use as a sole source of nutrition.

For enteral use only.
